

SHARAD CHHUNJU

Lead QA / Lead SDET

SUMMARY

Experienced Lead QA/SDET with 6+ years of expertise in automation engineering, QA leadership, and strategic quality planning. Strong background in building scalable automation frameworks, leading QA teams, implementing CI/CD processes, and improving overall quality maturity. Adept at cross-functional collaboration, mentoring engineers, and delivering stable, high-quality releases in fast-paced environments.

EXPERIENCE

Senior SDET / Acting QA Lead — UBA Solutions | Monotype (Nov 2022 – Present)

- Acted as QA Lead, driving end-to-end quality strategy, test planning, and release readiness.
- Architected and maintained automation frameworks using Python, Selenium, Pytest, and Accelq.
- Increased automation coverage by 40% and reduced regression cycle time significantly.
- Implemented Jenkins automation with automated email report forwarding after each run.
- Configured 24-hour Jenkins cron jobs enabling continuous testing and early defect detection.
- Developed multilingual email localization automation framework covering 20+ languages.
- Mentored junior QAs and interns, uplifting team automation and debugging capabilities.
- Collaborated with Engineering, Product, and Localization teams to refine requirements and improve release stability.

Senior QA Engineer — InfoDevelopers Pvt. Ltd. (Jun 2021 – Nov 2022)

- Led QA activities for financial applications, ensuring full-cycle quality ownership.
- Performed Cypress automation, functional, API, and load testing.
- Facilitated UAT with business teams, ensuring clear requirement validation.
- Created test plans, cases, and documentation to improve coverage and structure.
- Collaborated with developers and analysts to identify issues early in the lifecycle.

Junior QA Engineer — ITGlance (May 2019 – Jun 2021)

- Performed manual and regression testing across multiple applications.
- Introduced Cypress automation for specific modules, reducing test cycle time.
- Created structured test cases and defect reports improving quality tracking.
- Trained interns on QA fundamentals and automation basics.

EDUCATION

MBA (Leadership & Strategic Management) — Lincoln International College (2023–2025)

BSc CSIT — Tribhuwan University (2017–2021)

SKILLS

Leadership: Team Mentoring, QA Strategy, Release Planning, Stakeholder Communication

Automation: Selenium (Python), Cypress, Accelq

CI/CD: Jenkins (Pipelines, Cron Jobs, Email Reports)

Testing: API Testing (Postman/Swagger), Performance Testing (JMeter)

Tools: Git, Jira, TestRail
